

**WATER SYSTEM RESERVE FUNDING QUESTIONNAIRE**  
NORTH DAKOTA STATE WATER COMMISSION  
WATER DEVELOPMENT  
SFN 60910 (10/2019)

System Name	Project Name
Name of Person Supplying Information	Telephone Number
Number of People Currently Served by this System	
Number of Service Connections Currently on this System	
Annual Water Use in Previous Fiscal Year	
Current Base Water Rate (with no water included): (If water is provided within the base rate, remove it from the base rate. For example if 5,000 gallons is provided in the base rate, multiply the cost per 1,000 gallons by 5 and subtract it from the base water rate.)	
Current Charge per 1,000 Gallons	
Current Charge per 1,000 Gallons that Goes to Reserve Funding	
Total Reserve Funding in Account at End of Previous Fiscal Year	

The remainder of these questions relate to the expected numbers after the completion of the project in the cost-share application.

Number of People Served by this System After Project Completion
Base Water Rate Charged After Project Completion (with no water included)
Cost per 1,000 Gallons Charged After Project Completion
Cost per 1,000 Gallons Charged that will Go to Reserve Funding After Project Completion
